

Boostify

AI POWERED BUSINESS INTELLIGENCE

Customized Sales & Marketing Intelligence for  
ecommerce

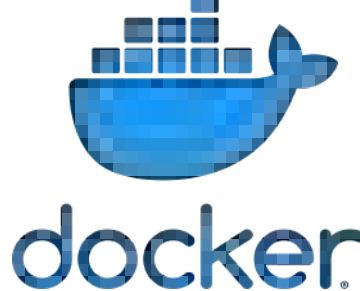

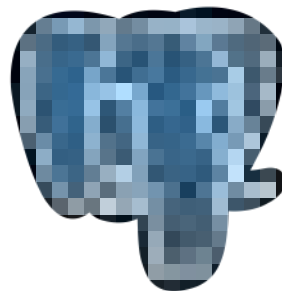

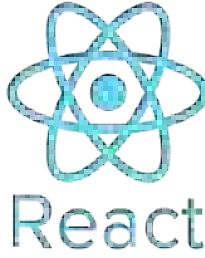

Overview

Our groundbreaking project leverages AI to simplify and automate business intelligence processes. By seamlessly aggregating and analyzing data, organizations can effortlessly uncover valuable insights and gain a deeper understanding of revenue changes. With this newfound clarity, making data-backed decisions becomes effortless, allowing businesses to thrive and outperform in today's fast-paced and competitive business environment.

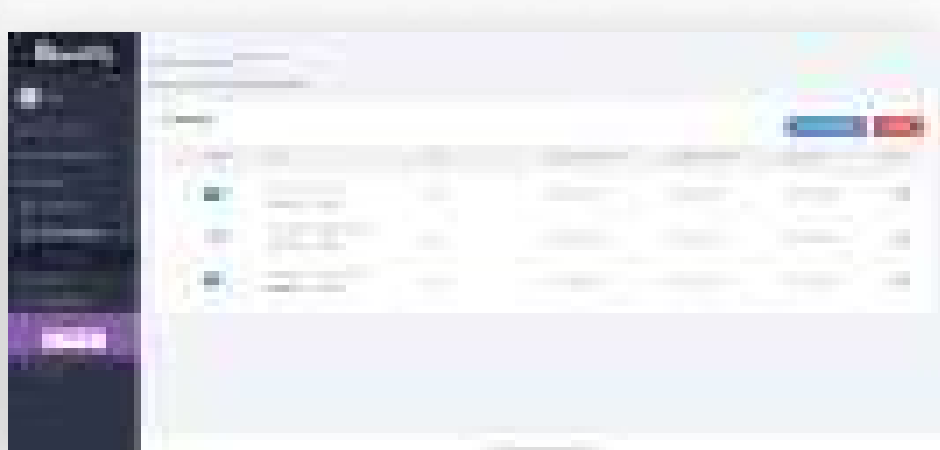

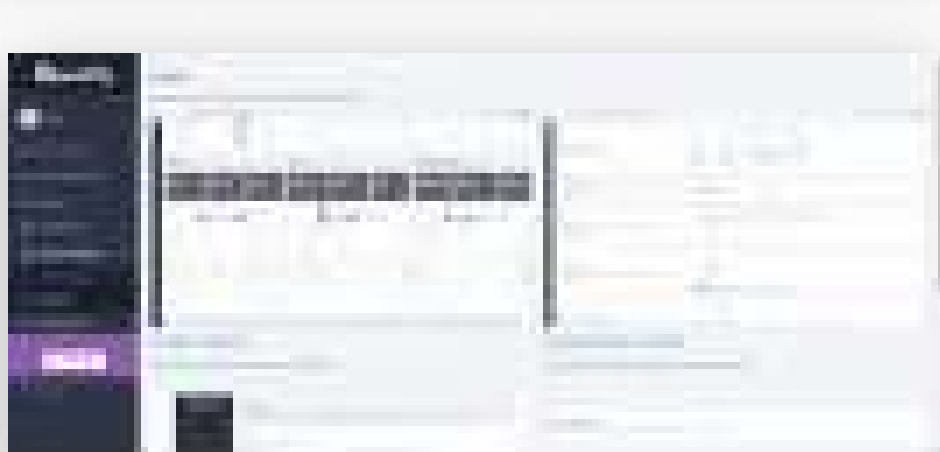

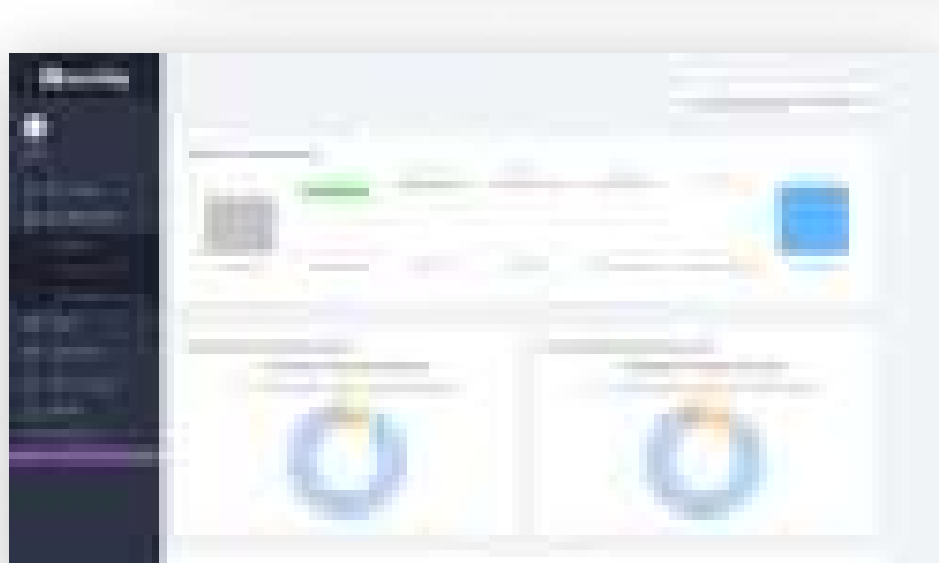

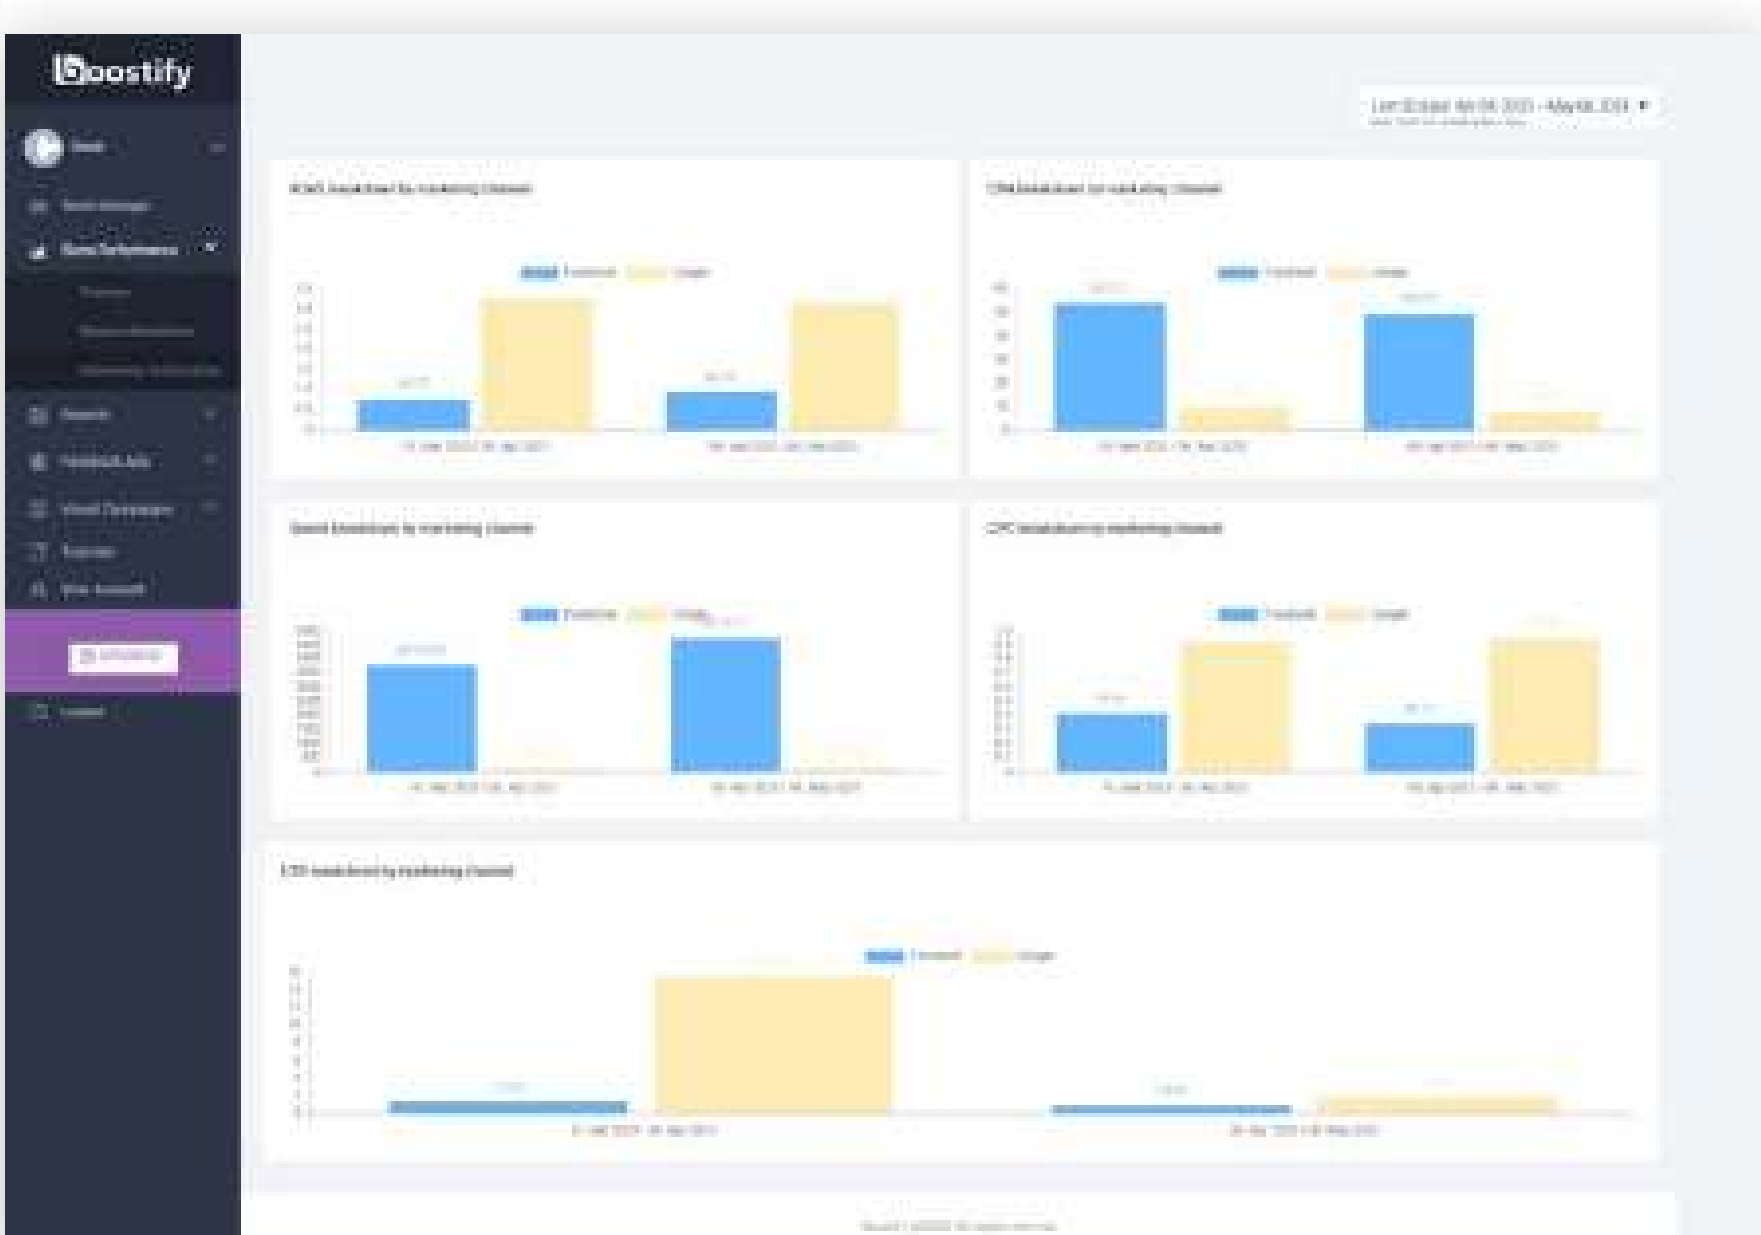

Boostify not only informs you about your sales and marketing trends, it also breaks down your revenue into its drivers, followed with recommended actions.

- Effectiveness and Revenue Breakdown by Marketing channel
